## DREW A BIG KNIFE

Geo. Bush Holds Men at Bay  
With a Butcher Knife.

### LOOKED LIKE LYNCHING

Colored Men Drive Hog  
Scraper Out of Town.

George Bush, a colored hog scraper at the Dold packing plant, narrowly escaped lynching yesterday morning at the hands of a number of his fellow employees. It was reported at the packing house that he had had serious trouble with a young colored girl named McDougal Saturday night, and it was this which created the trouble.

Saturday night, it is claimed, Lucy McDougal, a 12-year-old colored girl living on the West Side, was stopped near the Twelfth street depot of the Missouri Pacific. It is said that some man caught her and attempted to wrap a handkerchief about her face and pull her off from the street, presumably with villainous intent.

The girl managed to break away and run home. She told her parents that she thought the man was George Bush. They consulted the police about the matter and had about made up their minds to swear out a state warrant yesterday morning.

In the meantime a story was circulated at the packing house that Bush had raped the girl. A number of colored men working with Bush decided, it is said, to try the effect of a little lynch law. When Bush came to work yesterday morning several of the men attempted, it is alleged to get close to him in order that they might grasp hold of him.

Bush evidently suspected trouble and, drawing a large butcher knife, it is said, stood off the men for a minute or so and then broke and ran. By that time other members of the gang had arrived and the crowd, it is reported, took after Bush, arming themselves as they went, with butcher knives and ropes.

Bush dodged in and around the building, it is stated, and managed to keep ahead of his pursuers, who were intent upon stringing him up. He finally managed to elude them and made his escape. The men were greatly excited and would probably have wreaked vengeance upon Bush had they caught him.

### REMARKABLE RESCUE

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption, and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption. She bought a bottle, and to her delight found herself benefited from first dose. She continued its use, and after taking six bottles found herself sound and well. Now does her own household work, and is as well as she ever was. Free trial bottles of this Great Discovery at G. Gehring's drug store. Only 50c and \$1. Every bottle guaranteed.

### STOLE A WASHBOILER

Roy McDaniels Is in Trouble Once More.

Roy McDaniels was arrested yesterday by Officer Smith on the charge of stealing a copper wash boiler. He was caught skating on the ice. He is known to the police as a bad boy. It is alleged that he is continually in trouble on account of stealing everything available. He has been to the reform school and is commonly called by the police "a tough customer," although he is but a boy.

### FOR HOARSENESS.

Benj. Ingerson of Hutton, Ind., says he had not spoken above a whisper for months, and one bottle of Foley's Honey and Tar restored his voice. It is used very largely by speakers and singers. Hocking Drug Co., G. Gehring and Wells Miller, druggists.

### USED STOVE BLACKING

Policemen Try to Blacken Their Shoes With It.

Yesterday some one took the shoe blacking from the box at the police station and substituted stove blacking. A number of policemen polished their shoes with the substance and the result may be imagined. Mayor Ross nearly fell into the trap but was saved by Major Burr, who gave him a "tip." Chief of Police Cullen is charged with committing the practical joke. As he does not deny it very hard it is thought he is the guilty party.

### FOR PNEUMONIA.

Dr. C. J. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia the past month with good results. Hocking Drug Co., G. Gehring and Wells Miller, druggists.

### OLLIE IS HUNGRY

Curses While He Eats His Meal of Bread.

Ollie Craig, the little colored boy who is in jail charged with assault, does not like his diet of bread and water. He asserts that he is starving to death. Yesterday when he was given his meal of bread he ate the bread and cursed the police department in hearty tones for the education of the officer standing near. Craig has nearly a month of bread and water diet still before him before he will get out.

The person who disturbed the congregation last Sunday by coughing, is requested to call on Hocking Drug Co., G. Gehring or Wells Miller, druggists, and get a bottle of Foley's Honey and Tar, which always gives relief.

### DOLD'S SPECIALTY DEPARTMENT

Is Proving to be Much of a Success Here.

The specialty department at the Dold Packing company's plant, which was established but a short time ago, is proving to be a great success. The department was made a necessity by the increasing business in the sausage department, of which it was formerly a part.

One of the newest things turned out by the specialty department is boneless pizza feet. This is made with special care and is a particularly dainty article. It is packed in ten pound packages. It is proving a great success, although only put on the market last week. The traveling men received samples only last Saturday, but already orders have begun to pour in. It promises to be one of the most popular brands of delicacies made by the plant.

The Rathman pressed ham and the Dewey sausage are becoming more popular daily and the sales are little less than enormous. The reputation of the Dold company for producing only the best is such that their stamp is accepted everywhere as a guarantee of quality.

### MULHALL'S ENTERPRISE

Town Is Arranging for a System of Waterworks.

Mr. Tom Woolsey, editor of the Mulhall Enterprise, was up from the territory yesterday. Speaking of Oklahoma to an Eagle reporter, he said: "Oklahoma is the greatest country on earth, and Mulhall is one of her best little hamlets. We have only about 1,000 inhabitants, and yet we are going to put in a system of waterworks. We have splendid stone and brick business dwellings, and have the best and most productive surrounding country. Oklahoma and Mulhall are all right."

### FREE CHRISTMAS DINNER

All who wish to aid in carrying out the good work, by donations, please give to the solicitors or bring to the mission evenings or Saturday before Christmas. There will be services in the afternoon and evening. F. H. Church in charge.

### CAR OF CANS

Dold Packing Company Buying by Wholesale.

The Dold Packing company yesterday received a car of 50-pound hard cans, which will be used for the express trade in particular. The cans are all lithographed neatly with the Dold insignia. The large purchase was made on account of the heavy business of the department. The company has arranged for similar shipments at stated intervals. The White Clover Leaf brand is proving a heavy seller and is very successful. The demand at times nearly exceeds the capacity of the plant.

### WANT TO AVOID PENALTY

Taxpayers Lined Up in Groups at Treasurer's Office.

There was a long line of taxpayers at the windows of the county treasurer's office yesterday from morning till night. The men were lined up, each waiting eagerly for his turn. The cause of this rush is the 5 per cent penalty which goes into effect tomorrow, and with most of the county taxpayers this amounts to a great deal. To expedite business Treasurer Lloyd has employed extra help and looked all doors to the inner office.

### NEW AMBULANCE

James Howard Is Having One Built Here.

James Howard, the liveryman, is having an ambulance built by the Wichita Bus company for use in the city. There has never been an ambulance in use in this city. The patrol wagon has been fitted up so an injured person might be carried, but there was no protection from the weather. The new ambulance will be of the latest design.

### CHANGE IN LETTERING

Santa Fe Is Doing Away With Old A. T. & S. F.

All new Santa Fe passenger coaches and all old ones as fast as they are taken out of the paint shops have a new style of lettering. The words "Santa Fe" are alone at the top of the car, while the old familiar "A. T. & S. F." appear only in small letters at the lower corners of the car, just under the car number.

### VOLCANIC ERUPTIONS

Mr. Wadleigh is an able speaker and draws large audiences wherever he lectures. Subject will be "India, the Wonderland of the Orient."

WHAT DO THE CHILDREN DRINK? Don't give them tea or coffee. Have you tried GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when mixed with water or milk is the choicest grade of coffee, but costs about 1/10 as much. All grocers sell it. See and try.
